 - I think going forward I will continue to include the TOV numbers, until the dust settles around December :) I received the final request for scholarship yesterday, and sent the university the check for \$1500. We have \$3000 in unreconciled checks floating around currently. I've also renewed our liability insurance for the board members, which is unchanged from last year. Currently I'm forecasting almost \$2000 for the second part, which is the part that keeps going up every year. So we'll see how that goes. This is very forward thinking, but our storage unit will be up for renewal at the end of this year. The cost is expected to go up another 20%, so this is something we will have to address. The numbers for TOV are built with cost increases included for inflation. Should be pretty conservative, so what you see is a good benchmark to repeat. Hopefully we can continue to build on what we accomplished last year. The only other question is the Spring Fling money. Which we could reallocate or just roll over to next year.
